WINTER COLLECTION

UNEARTH AN EXCEPTIONAL LUXURY COLLECTION

The crisp winter days are upon us here in Great Western, It's a time that I love to take a moment's pause and embrace the changing seasons with a toast to the year that's passed. In this Winter dispatch I'm thrilled to be able to give our members a preview of the wines in our 2020 Seppelt Luxury Collection. These wines are a testament to the diversity and quality of our vineyards. Sourced from an array of Victoria's most renowned winemaking regions, they are crafted to reflect their regional nuances – unique characteristics which are quintessentially Seppelt in style.

In particular, the 2018 St. Peters Shiraz is a real tribute to what the Grampians region can deliver. Utterly distinctive in style, this year's release was again sourced from the finest, most intense fruit – resulting in a powerful wine – equally displaying great finesse that will continue to evolve with age. And, as ever, this year's Drumborg wines are finely structured and expressions of purity and balance that starts in the maritime Drumborg vineyard.

I hope you enjoy all that these collections offer – purity of fruit, a multitude of meals and the very essence of Seppelt in every bottle. Thank you for being part of the Custodians of Seppelt journey, which, this year, gives our members the opportunity to unearth the 2020 Luxury Collection before the official release in the third week of June.
